

Recruit Release Notes Changes Launching 2015-06-30

Compliance

There is new **help text about Interview Materials**, which should help analysts know what should be uploaded into that space in order to remain compliant with OFCCP regulations.

User Interface

We have **cleaned up the display of recruitment**

dates on the apply page that lists all open recruitments as well as on each recruitment's detail page. This will help make the application deadlines and review dates more clear to applicants, so they will know when they need to apply in order to be considered by the committee.

Our old friend the **Applications tab is no more**, and all analysts and search committee members should now use the Recruitments tab instead.

Librarian View/Apply to this recruitment Contact	JPF00162	Apply by May 24, 2016 for full consideration Open May 14, 2014 - May 24, 2016

RECRUITMENT PERIOD

Open date: May 14th, 2014

Next review date: May 24th, 2016

Apply by this date to ensure full consideration by the committee.

Final date: May 24th, 2016

Applications will continue to be accepted until this date, but those received after the review date will only be considered if the position has not yet been filled.

LEAD IN MODE

Notable Bugs Fixed

- When adding an offer while changing an applicant's status, Recruit would silently fail to save if you provided invalid information. It now complains properly.
