

# Recruit Release

## Notes Changes

Launching 2015-07-16

## Usability

Throughout Recruit we have popup help that informs you why things are locked, but those tips would sometimes obscure controls you wanted to get to; the timing on those has been changed to get in the way less often, and get out of the way sooner.

## Applicants

When you add a new optional document to a recruitment after applicants apply, **the email notification is now available in the applicant log.** This email is sent to all applicants, and will appear in every applicant's log.

## Notable Bugs Fixed

- Fixed another case when you could put incomplete information into an offer and Recruit wouldn't tell you how to fix the problem; now it correctly points to the issue.
