

Recruit Release Notes Changes Launching 2015-08-13

Compliance

Recruitments with review dates now show their **Applicant Disposition Status**, making it easier to know what needs to be done before the recruitment can move forward.

● Applicant Disposition Status SEARCH REPORT

Disposition reasons (or comments) must be assigned for all complete, on-time applicants who have not withdrawn.

We now **lock the Recruitment Description** after the search plan is approved, keeping the analyst from changing the public face of the recruitment. Like the other locked areas, the analyst will be told ahead of time that the lock is coming, and when the lock is in place the analyst is given a prompt to email the admin as needed.

Design

We **swapped the position** of the “Reports” and “Applicants” tabs in a recruitment. This keeps the UI consistent across user roles, and better matches the chronology.
