

# Recruit Release Notes Changes Launching 2015-11-19

## Applicants

It is now *even quicker* to **update an applicant's status**. With the new modal editor, you don't even have to leave the applicant grid or applicant review page; it all just updates where you are, so you can keep on reviewing.

## Bugs 'n Stuff

- Fixed an issue where multiple reference requests could be sent when double-clicking the request buttons
- When logged in as an applicant, you can now view the open recruitments list and the details of other recruitments
